Millikin-Stephan Vows Spoken

Miss Gloria Ann Millikin, daughter of Mr. and Mrs. Ralph Millikin of 909 Ottawa St., became the bride of Peter W. Stephan, son of Mr. and Mrs. Herbert Stephan of 300 Mikado St., in a double ring ceremony at 9 o'clock in the morning on Saturday, April 7, 1956. The Rev. Fr. John Brettenstein officiated at the ceremony in the presence of seventy-five guests. White lilies were placed around the altar for the occasion.

Gloria was given in marriage by her father. She wore a halter-length dress of white net over satin, designed with an off-the-shoulder neckline bordered with satin rosettes. She carried a colonial bouquet of white carnations and roses.

Miss Helen Jean Millikin, sister of the bride, was maid of honor. She was dressed in a salmon pink gown of lace over satin, bell-sleeved. She wore a matching headpiece and carried a colonial bouquet of yellow carnations.

Peter Stephan was attended by a cousin of the bride, Robert Butka of Grayling. For her daughter's wedding, Mrs. Millikin wore a powder blue dress with tan accessories, and a red rose corsage. The groom's mother was attired in a blue linen suit with black accessories. She wore a red rose corsage also. Mrs. Carl Larson and Mrs. Ed Bowen, grandmothers of the groom, wore white carnation corsages.

Following the ceremony a reception and dinner were held at the home of the bride's parents. A beautiful pale pink 3-tiered wedding cake, topped by a miniature bride and groom, was centered at the refreshment table among cedar boughs guarded by white tapers. Mrs. Jack Church, sister of the bride, made and decorated the cake.

For their wedding trip through northern Michigan Gloria was dressed in a navy blue and white linen suit, with white accessories. The happy couple were now at home in Karan Woods. Grayling. The former Miss Millikin is a member of the class of 1956 of Grayling High School.

Her husband graduated from Grayling High School in 1956. Out of town guests who attended the wedding included Mr. and Mrs. Casmer Butka and family of Grayling, and Mr. and Mrs. Morris White and daughter of Jackson.

**RITES READ FOR ROY E. JOHNSTON**

Roy E. Johnston, 66, succumbed at Mercy Hospital in Grayling on Sunday, April 8, 1956, at 4:10 in the afternoon. His death was due to a heart condition, from which he had suffered for two years, although he was hospitalized for only two weeks.

Mr. Johnston was born to Susan and James Johnston on June 12, 1890, in Baldwin, Mich. He spent his boyhood in Lewiston, later lived in Dearborn and Detroit, where he was a fireman from 1923 until 1937. He was married to Mary Johnston on June 12, 1912, in Detroit. The former Mary Abram, who preceded him in death in 1943. To this union were born one son, Jack, who died in 1935, and a daughter Mrs. Thelma McWilliams, of Grayling.

In June of 1944 Mr. Johnston married Mrs. Velma Reava in Detroit. She survives him, as do three stepsons, Dwight, Roy and Richard. Reava of Mt. Pleasant, two stepdaughters, Mrs. Dorothy Sheffer of Cincinnati, Ohio, and Nancy Ann Reava, at home, and a daughter, Sharon Joy Johnston, also at home. There are two grand children surviving, also one sister Mrs. Edna Greenwell of Grayling, and two brothers, James and Elmer of Seattle, Washington.

The Johnstons moved to Grayling in 1937, where he followed the profession of carpenter until 1948. Mr. Johnston then took up farming, which he did until 1954. Funeral services were held at the Grayling Free Methodist Church on Tuesday, April 11th at 2 o'clock with the Rev. R. C. Puffer officiating. Music was furnished by Mrs. Floyd Taylor. Interment was in Elmwood Cemetery in Grayling. Burial was in Pleasant Grove, near Boger, Jens Ziebell, and Pearl White and Oscar Parsons of Maple Forest acted as pallbearers.

What Happens To Cancer Contributions

What happens to the contributions arriving daily at the American Cancer Society's office here during its current campaign to raise its quota of \$650,000 in the ACS nationwide drive for \$28,000,000?

"Knowing where the money goes," Mrs. Harold Rasmussen and Mrs. Carl Johnson, local campaign chairmen, said today, "is the right of every contributor to this Cancer Control Month quest for funds to support our Society's far-reaching programs of medical and scientific research to find new cures for cancer, public and professional education, and service to patients."

Here is how collected money is distributed, as explained by the chairmen. The Crawford County division keeps 50 cents of every dollar raised under its jurisdiction. This money is used to further cancer education for adults as well as school children. It pays for films and literature aimed at giving people in general a better understanding of the cancer problem. In addition our county maintains a loan closet of items available to cancer patients. Included in this closet are wheel chairs, crutches, hospital bed, television, an over bed table, television bedding, bed pans, bed jackets and dressings. Surplus funds in the County were given to cancer research.

Ten per cent of the funds raised goes to the state organization to administer state wide programs of cancer control such as projects for improving facilities for detection and treatment of cancer; research courses for doctors; training nurses; for educational tools which can be used on television and radio; for motion picture films; pamphlets and posters.

Of the 12 per cent of contribution going to the Society's national office only 2.4 per cent is spent on the national fund-raising campaign.

The remaining 3 per cent is allocated for medical grants to investigators going to the Society's national office for fellowships to train young scientists for cancer research.

The cancer dollar is definitely a bargain. The Society's action is organized so as to squeeze the last ounce of cancer-fighting value out of every bit of money that is given by the public during the campaign. Clearly any contribution to the cancer program is a step toward continued widening of cancer control represents a solid investment in a winning struggle over man's cruellest enemy.

I imagine that just about the happiest occurrence that we have in Grayling is the Annual Trade Show. It's worthwhile for many reasons (most of which we found out by attending the Show). But I guess Jack Pine liked it the most for one reason that a local woman does. Says she, and Jack Pine agrees, "For once, just once in the year, everybody is co-operating and happy together and smiling at one another. For the rest of the year they are deadly competitors, but seeing all the good will for these two days is worth waiting for a year." Amen, Amen!

For several months now I have noticed a real sign just east of US-27 on M-72. I have noticed it and hoped that some day it would just go away and stop haunting me. But it doesn't. It's still there. And so, I'm writing to you, and I'm really hoping that SOMETHING will be done before our tourists arrive. Jack Pine respect fully requests that the sign reading "Luzerne" be removed, changed to read "Grayling" or "Michigan" or in some way done in. It might even be that our neighbors in Luzerne might think we are stupid or something! -JP

To Radio Station WHGR, Houghton Lake: Since we are more or less forced to listen to you, if we want to get good steady reception, I have a slight request. Please, if you could, stop the weather forecasts, and forever dispense with your Singing Weatherman. Two Ton Baker, whoever or whatever that might be, is not as effective as a two ounce mouse in a coal yard... and an awful lot more irritating. -JP

Everyone, including the Governor, is proud of the greatest tourist and resort year in Michigan's history. And that's our bread and butter in Grayling... year 'round. Industry in Grayling will help a lot, but being able to see our tourist facilities on a year around basis will help a lot more. It's a selling job that we have to do, and the best time to do it is the summer time when there are more people here. Sure would be nice if we had a lot of the geniality shown at the Trade Show carried over for the rest of the year. -JP

And speaking of industry in Grayling, a woman who always cries why industry don't thank their lucky stars for these we do have... Bear Archery, for example, The Stephan Wood Works is another example of the best of the best at the Trade Show; opened a lot of people's eyes. -JP

Here's a switch. Got a man who is going to want a ten week old beagle pup in a couple of months. So any of you kids for adults that got some beagle pups you may be wanting to get rid of, hold them for a while... till the middle of June. -JP

Got some interesting facts on migratory birds from the Conservation Department news service. Seems that a bird banded in Michigan holds the record for the longest flight. Captain Tern, banded on Beaver Island was killed 28 years later in Ohio. A pintail duck, banded in North Dakota, was killed in South America, and another plane in the California was shot three months later on a Pacific Island 4500 miles away; still another was killed in England 21 days after being banded in Labrador. -JP

Jack Pine wants to thank all the nice people who have written or otherwise told of their personal recollections of time spent at the Ausable River Farm when Minnie Brothers was there. These personal expressions of affection for a very fine woman have come from as far away as Crabtree, Oregon. -JP

Middle Age: That time of life when you are sitting at home on Saturday night and the telephone rings and you hope it isn't for you. -JP

It's a little bit late for this item but maybe it will do some good for next year. To the City Officials who plausibly claim that no dirty snow was dumped into the Ausable River this winter. PHOOEY! Too many people saw too much black, chloride-ridden slush and snow dumped just off US-27 for that story to hold up. It really looks great for a sign to proclaim "Our Stream Not Polluted" on one side of the US highway and city trucks dumping dirty snow on the other side. Really must make a good impression on the potential tourists passing through. -JP

A wife whose husband arrived home after a few too many drinks was a bit irritated. "If it were the first time, Sam, I could forgive you. But you came home like this in November, 1916." JACK PINE

Is Crawford County Red Cross Helping?

The question has been raised here why hasn't Crawford County gone to the aid of the tornado victims in our state. The answer is that our county has indirectly. All aid to disaster areas is handled by the area Red Cross office and by our Red Cross chapters in this county we have helped. Imagine the confusion if each county Red Cross chapter went dashing to the scene of a disaster with no planned program. Red Cross does not operate that way. Each county contributes to headquarters and in turn set up a program of aid to disaster areas. So far \$1,006.00 has been contributed to the Red Cross drive in this county of which 46.4% has already been sent to Red Cross headquarters.

Twenty four volunteer workers in this county are yet to be heard from. It is hoped that these workers will be prompt in finishing up their collections so as not to interfere with the current Cancer Drive.

We reprint the following telegram received by Mrs. C. G. Clippert, Crawford County Red Cross drive chairman, from National headquarters.

Severe Tornado damage in six midwestern areas again confirms urgency of exceeding goals 1956 fund campaign. About half of the 1300 families made homeless in Michigan and Wisconsin. No special disaster campaign being launched because money needed for victims is in your campaign goal. Please immediately take whatever additional steps are necessary to assure reaching goal. If your chapter has already attained goal appreciate your further effort in securing substantial oversubscription.

## Choose Your Weapons

In any battle, the side that can choose its weapons is likely to have the advantage. And in some of the world's greatest conflicts money and knowledge are powerful implements against an enemy. That is particularly true of the war to control and eventually conquer cancer. Number Two killer among diseases that prey on humans.

With this in mind the American Cancer Society, which carries on an unceasing three-fold campaign of research, education, and service for suffering, is voicing a new and significant slogan: Fight cancer with a checkup and a check!

It urges all men and women to have periodic medical checkups to detect the existence of any possible cancer symptoms and it asks for checks to enable its cancer control program to go forward without interruption. Thus the Society seeks to render a deadly enemy powerless and to save countless more thousands of lives through prompt and adequate treatment.

Realistic people will heed that urging. It is sensible, and it will add to the peace of mind and happiness of a vast number.

And the appeal of the ACS to "say it with a check" does not exclude anyone who lacks a checking account in giving toward its vital work. Making a contribution of this kind to the Society is one satisfying way of participating in a herculean struggle to end an ancient foe to our lives.

Send the check today, and arrange for the medical examination without delay. That's wise health insurance.

### Letters To The Editor

Dear Editor:

I read in the Crawford Avalanche, the decision the board of supervisors handed down on the bill from Mercy Hospital to the case of George Petricha. I can't understand why?

When Mr. Petricha was put in the hospital the then Judge of Probate, the late Robert Neafie, went to the welfare and they refused to take the case. It seems the hospital after taking care of him for two years decided some action must be taken. They petitioned the prosecuting attorney to act on the case. The welfare then took over, declared the man incompetent, put him in a home at Bates. Why did not the welfare take over when the Judge of Probate first asked? The man was in his right mind and would of turned his property over and received \$100.00 per month from state to help pay his bill. It is a just bill the hospital had and for a group of men representing the people of this county to refuse looks as if they had some other motive in mind. There was no question on the part of welfare on these bills, attorney fees, \$54.40; appraising property, \$40.00; for Mr. Petricha's estate.

We have no city hospital or county doctors, we are fortunate to have a hospital in this county and both doctor and hospital bill should be paid. We have a duty to take care of our people who are unable to take care of their own means. But it seems the welfare turns some down that need aid, while they welcome some with open arms. Some get aid to buy food and spend money in taverns. The point I wish to bring out is that the welfare department is not run very efficiently.

I know of one case where the welfare of this county refused a doctor's bill because he started treating patients before he started the county. Since the county refused to pay his bill he decided he could no longer spend time taking care of patients and recommended the patient be sent to Ann Arbor. The patient went to Ann Arbor and the county honored the doctor's bill the patient would have received treatment by the doctor and saved the county a great deal of money.

Let's see how this will work if it is followed out exactly as the supervisors want it: no bill from hospital or doctor will be honored unless they are signed by welfare before treatment is started.

Did you ever witness a patient die in waiting room while they were getting necessary papers signed by welfare? I have and it is a sad and terrible thing. This very thing can happen here now if the hospital does this it will cost the county many times more when they have to send them away, where the rates are much higher, rate at our hospital here.

Second, take county cases giving emergency treatment only until all papers are in order and signed by proper authorities. Then instead of giving the county a cheaper rate charge the regular fee.

I think a better check by supervisors of welfare department would save the county money for it is my honest belief that money is being wasted and honest bills not being paid. Bernard Maurer.

### WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

Abraham Lincoln once said, "You can fool part of the people all the time, all the people part of the time, but you can't fool all the people all the time."

And as reports keep coming in, it appears the truth of this statement is being proved in the grocery business.

A shopping trend seems to have stopped, with a new one appearing to be in the making.

That new trend appears to be that people are once again trading independent.

Two sets of figures are quite interesting.

In 1955, for the third straight year, chain grocery stores failed to show any gain in percentage of total food sales, holding at 36%, only 2% above 1933.

Yet food chain store profits dropped in one year from 1954 to 1955 by almost 25%, so that in 1955 chain store profits averaged less than 1%.

It appears harder and harder to fool the public. Consumers are now becoming aware of the fact that quality for quality, grade for grade, independent operators usually can sell for less than chains.

Chains have been trying to meet their problem by pushing their own brands, manufactured by their own subsidiaries.

However, with distribution of their brands limited to their own stores, chains are finding that they cannot achieve the volume on them to compete with widely.

Distributed national and regional brands.

At same time, consumers are showing themselves more inclined to favor the well known national and regional brands. In order to change this public preference, the chains have attempted to cut the price on their private brands, thus further aggravating their profit situation.

Presumably, in time stockholders will get curious.

Public also seems to be swinging to point of view that the home owned, independent business offers greater security to the community.

For example, recent study shows that while only 55% of the nation's families are home owners, 82% of the independent grocers own their own homes.

In addition, every sign at present seems to indicate the housewife is rebelling over having family food prices dictated by distant managements.

She is doing something about it, turning more and more to the independent grocer to get known brands at lower prices. Today's housewife is becoming more resistant to ballyhoo.

In fact, it is now reported by some food processors that some chain buyers are stating quite openly that they cannot afford to handle goods unless they do get price concessions over the independents. Thus, vigilance in the enforcement of the anti-trust laws will keep this "trade independent" trend growing.

The public is once again recognizing the independent merchant is not only a community pillar, but the most efficient distributor of goods.

### Mike Mathewson Sworn In As State Trooper

Among those sworn in as probationary troopers by Commissioner Joseph A. Childs at graduation exercises held April 6 for the largest recruit class in State Police history was Stanley A. Mathewson, son of Mr. and Mrs. Earl Mathewson, Karen Woods, Grayling, Michigan.

He has been assigned to the Bay City Post.

The class numbered 114, representing the first to be graduated of the 200 new troopers authorized at the November special session of the state legislature. The remainder, plus some additional officers to fill vacancies, will be graduated May 18 from a school starting April 9, which will place all of the 200 on traffic patrol for the summer months.

### Plan Adult Class In Lip Reading

Mrs. M. Bethel Clifford of Lansing, Field Service Consultant, will be in Grayling on Monday, April 16th to work with School and Health Dept., in setting up classes in lipreading as a follow-up of the testing program carried on by Mr. Robert Chaplin, Audiologist for the Michigan Association for Better Hearing. Mrs. Clifford brings to her work with the hard of hearing a story of personal triumph over a hearing problem which threatened to bring tragedy to her entire life.

A lipreading class for deaf and hard of hearing adults in Grayling and neighboring communities will begin Monday evening April 16, at the Activity Room of Grayling High School from 7 to 9 p. m. The teacher will be Mrs. Clifford.

Sponsored jointly by the County Health Department, adult education division of the Board of Education and the Michigan Association for Better Hearing, the course will be held every Monday for 6 weeks.

The course is part of the program of the Michigan Association for Better Hearing, a state-wide United Fund agency. Money to support the work of the Association was raised in the Michigan United Fund drive. Organization services are provided by the Association, the high school provides the facilities.

Lipreading, or speech reading as it is sometimes called, is a method of understanding people by watching the word formation of their lips. It is a technique for training the eyes to help the ears. It is especially important for those who are deaf or hard of hearing, but is also very helpful and important to those who are just beginning to have difficulty with their hearing.
